Indianapolis, Indiana 46206-6015

Re: Pretreatment Program
Modification

Dear Mr. Baker:

We have reviewed the City of Indianapolis' January 23, 1995, request to modify its pretreatment program. Specifically, the City has proposed modifications to its Sewer Use Ordinance. The United States Environmental Protection Agency (USEPA) finds the modifications to be consistent with the Federal requirements and requests that you public notice our intent to approve the amendments.

USEPA will make its final decision whether to approve or deny the modification after taking into consideration comments received during comment period and any public hearing, if held.

If you have any questions, please call me at (312) 886-6089.

Sincerely yours,

Matthew Gluckman
Pretreatment Coordinator
